---

Full-stack software developer, with a passion for utilizing cutting-edge technologies to solve problems, create clean code and beautiful products.

## EXPERIENCE

**Software Engineer III**, Revel Transit Inc, 68 3rd St., Brooklyn, NY 11231

November 2020 - onward

- Full-stack independent contributor on a remote agile team focused on maximizing moped rental revenue and reducing costs. Building within a Python/Django backend and ReactJS frontend.
- Regularly designed feature architecture thru team-reviewed RFC.
- Dedicated time to mentoring more junior engineers about team best practices.

**Software Consultant**, Vertical Systems Analysis, 307 West 36<sup>th</sup> St. 10<sup>th</sup> Fl., New York, NY

2018 - 2020

- Created a NodeJS + React + Redux web app and React Native app iOS App for electronic elevator/escalator inspection, inspector productivity management, violation tracking and form generator
- Working directly with Inspectors, Admins and CFO to design a tool that would fulfill all of the companies needs and integrate with existing tools.

**Full-Stack Developer**, Bookspan, 34 West 27<sup>th</sup> St. 10<sup>th</sup> Fl., New York, NY 10001

2016 - 2018

- Created a NodeJS + React + Redux + TypeScript E-commerce web app, that handles 13 different separate web stores, replacing the old Magento web stores, and handled the associated data migration.
- Added features to internal CMS and AWS SQS driven internal message processing system. Worked with the product team on designs that maximize customer conversion utilizing our in-house A/B testing.

**Junior Software Engineer**, YouVisit, 115 W 30th St, New York, NY 10001

2015

- Worked on adding small features and bug fixes to the internal CMS which was utilized for creating VR tour experience. Consisted of a classic PHP LAMP stack, AngularJS frontend and hosted on AWS
